

Supply Chain Responsibility Policy

At Acorn Plastech, we are committed to ethical, sustainable, and responsible supply chain practices. We expect all suppliers and partners to adhere to high standards in the following areas:

1. **Ethical Business Practices** – Suppliers must operate with integrity, avoiding bribery, corruption, and unethical labour practices.
2. **Human Rights & Labour Standards** – We require fair and legal wages, safe working conditions, and the prohibition of forced or child labour.
3. **Environmental Sustainability** – Suppliers should minimise waste, reduce emissions, and follow sustainable sourcing practices.
4. **Quality & Compliance** – All materials and products must meet legal, safety, and industry standards. Compliance documentation to be readily available if required and/or applicable.
5. **Transparency & Accountability** – We expect full cooperation in audits if required, and disclosure of sourcing practices to ensure compliance.

Failure to comply with this policy may result in termination of business relationships. We are dedicated to working with responsible partners to build a sustainable and ethical supply chain.
